Why Do We Need Your Help?

Help us make it easier for disadvantaged students who need to intern and gain experience in their career before they graduate from college. Posimoto-Changing Faces Inc. is raising money to benefit young adults who are in need of assistance as they transition into their senior year in college. Many students want to take internships, but many nonprofit agencies offer them with no pay, therefore students find it hard to travel, pay for housing, food, and even their education while trying to gain experience in their field before they graduate.

Posimoto has partnered with USF's Department of Sociology, which offers bachelor's degrees in both Sociology and Interdisciplinary Social Sciences to create a scholarship for disadvantaged first generation students to assist with housing and educational needs while interning for nonprofit agencies during the spring of each year.

USF professors expressed this was a need for students in the Sociology and Interdisciplinary department at USF Tampa. There is a variety of mentor support that Posimoto will be providing for disadvantaged students in this department yearly. Tampa Professionals will help guide and mentor them to make sure they are able to better themselves educationally with career knowledge and financial stability, which will ensure a positive future for them as they grow into their future careers.

Help us to gift students in need by donating. Scholarships of \$2000 will be awarded to disadvantaged and first generation students each spring who qualifies, we ask for your help. A little goes a long way: <https://giving.usf.edu/online/gift/f/420184/>
